BLS + eSERT Starter

BLS CPR Pro+e SM301e

Results

Includes all the features of BLS CPR Pro SM201

Accurate Evidence Based BLS Training with Data

Easy to use, at-a-glance feedback system proven to have people achieve competence. Also includes simple access to your training results data plus eSERT to Assemble and Display your data in graphs and tables.

Highest Quality

Accurate full movement of the chest - High quality look and feel - External adjustment of chest resistance - Jaw Thrust - Accurate non-release of chest and displays too deep.

Accurate Ventilations

Most accurate simulator for ventilations. Real flow of air measured and displayed. Includes rescue breathing training as well as a special activity to improve CPR ventilations.

Results Management

The Quality Control Tools gives you immediate simple access to the performance details. Performance summaries are displayed in tables as soon as an activity is completed. Export individual and class results.

Enhanced System for Emergency Response Training

When you have multiple manikins and multiple sites, it is time consuming to collect and clean all of the results in order to be able to analyse them. eSERT Saves You Time. It takes care of Collecting and Cleaning of your data. Then it Creates a Dashboard with customized graphs so you can see the Trends and Meaning in your training results.

16155 Sierra Lakes Parkway Suite 160210, Fontana, CA USA 92336 Tel: +1 877 774-4323

Note: Sold as Torso Manikin. Arms & Legs, and IV Training Arm available.
