

SmartMan Wheeled Duffel

Add-On Option

This is a high quality wheeled duffel that is made by Samsonite. It makes it easy to move SmartMan around and it has sufficient capacity for accessories and also SmartBaby. With all of this it is still within the weight restrictions for being shipped as luggage on a plane.

Features

It is a 35" dual wheeled duffel with molded plastic bottom and rip-stop nylon for the top. It has self-healing zippers and multiple zippered compartments for storage.

The duffel come with top and side handles. Dual wheel makes it easy for pulling and the inline skate wheels make it a quiet gliding. There are durable gliders to protect the bottom. Unit weighs 6LB and is 35.0" x 17.0" x 14.0"

Packing

The adult torso manikin fits into the hard plastic molded bottom and is secured with a jump harness. There is zippered webbing to separate items in the top layer, with sufficient space for the SmartBaby in its padded carry case or for travel gear in the top and end sections.

Note

If you order this at the time you place the order for the training system, this duffel will be shipped instead of the grey carry bag/mat. That is, you will not receive the grey carry bag/mat.
