Focus On Ventilations

This product includes several special activities to improve ventilations on a baby. Respiratory difficulties occur more often with babies than with adults. These practice activities will improve how you use the BVM.

Lung Sizes

Choose multiple lung capacities
Single click to set size.

Volume Control

Feel how different volumes are used on different size babies.
See full feedback.

Ventilation Meter

Rate Control

Accurate feedback for even very low volumes. See air on ventimeter as it flows into the lungs.

Improve Tidal Flow

Shows in and out movement of air and proper release of the BVM.
