### Focus On Ventilations

This product includes several special activities to improve ventilations on a baby. Respiratory difficulties occur more often with babies than with adults. These practice activities will improve how you use the BVM.

#### Lung Sizes

Choose multiple lung capacities  
Single click to set size.

#### Volume Control

Feel how different volumes are used on different size babies.  
See full feedback.

#### Ventilation Meter

#### Rate Control

Accurate feedback for even very low volumes. See air on ventimeter as it flows into the lungs.

#### Improve Tidal Flow

Shows in and out movement of air and proper release of the BVM.
