SmartMan Computer
Add-On Option

SmartMan requires a PC computer to run the software. It will run on all recent model computers running Windows 7, 8, 8.1 or Win 10. You download the software and run it on your own PC. If you wish we are also able to supply a PC with the system at time of purchase. This has the advantage of having a complete system that works directly out of the box.

Computers

These will be PC computers running a Microsoft Windows operating system such as Windows 8.1 or Windows 10.

It can be ordered according to the size of the screen: around 10 inches, 15.6 inches, and 17 inches.

Setup

Operating System
This will be a new computer running an English version of Microsoft Windows operating system. We will open the computer, install the operating system and perform several updates to the operating system.
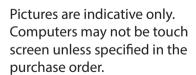

Cleaning
We will remove some of the bloat ware and perform some cleaning of the desktop.

SmartMan Software
We will then install the SmartMan related programs. The system will be tested on a SmartMan system to verify that it is all working correctly before it is shipped.

Free Third Party Software
We will also install several free third party software programs which will make it easier to create charts and save files in different formats.

Pictures are indicative only. Computers may not be touch screen unless specified in the purchase order.

Note on Warranty

We do **NOT** provide either a warranty or service for the computer. It may be covered by the manufacturer new product warranty. We recommend that you take out an extended warranty either with the manufacturer or with a third party.
