SmartMan Smart Caddy

The SmartMan Computer Caddy is an easy addition to your SmartMan. On your torso adult manikin one end fits over the popup and the platform holds a PC Hybrid computer or PC tablet. It keeps the wires out of the way and makes it easy to use your touch screen.

It is solid steel construction and comes in three pieces: a main platform, a back leg and a knob with screw. Loosen the adjustment knob to change the height of the platform and viewing angle of the screen.
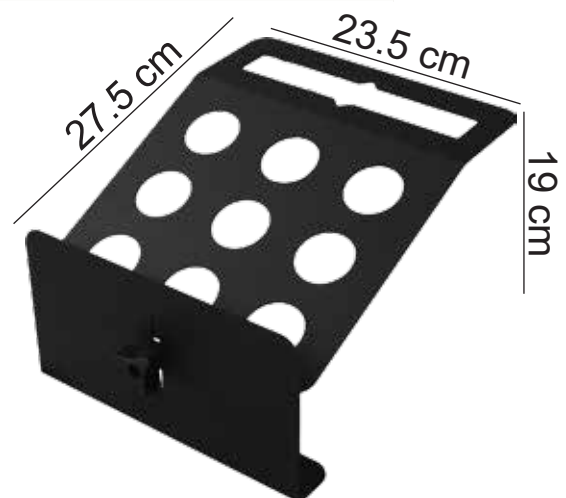

Key Features
