

## SmartMan Back at Arab Health 2018

Quality CPR and intuitive feedback simulation

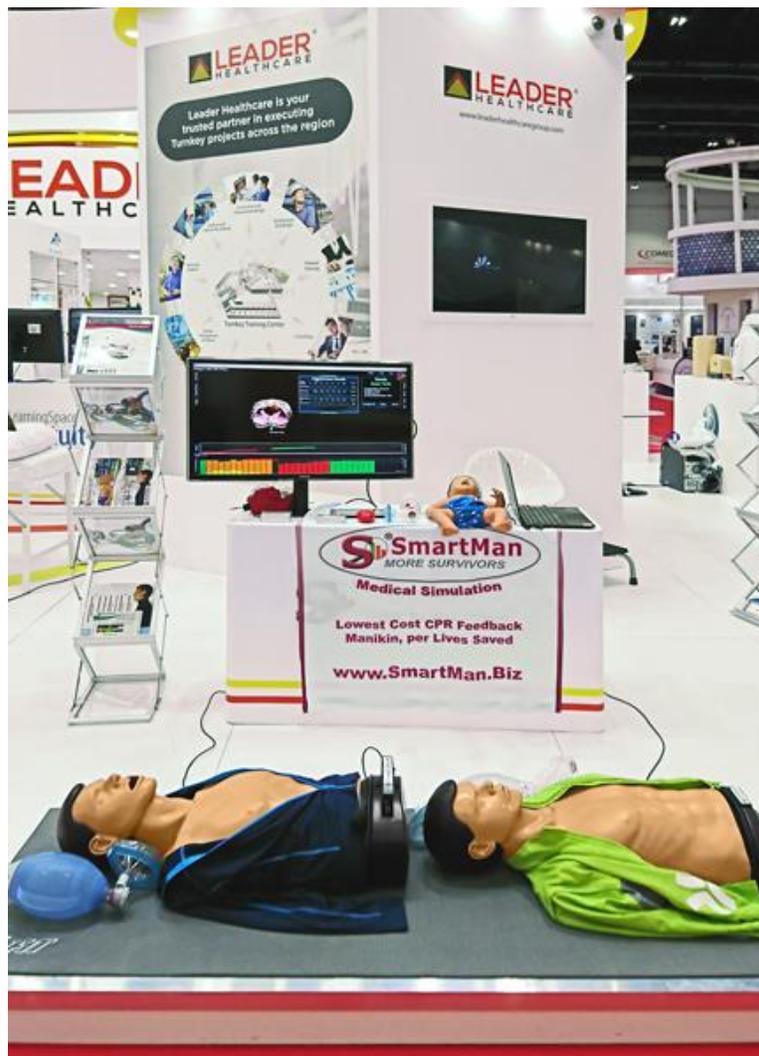

With last year's warm reception, SmartMan decided to return to Arab Health 2018 in Dubai, UAE. Again we were welcomed with a very warm reception.

### SmartMan High Fidelity Feedback Simulation

Arab Health, the largest healthcare exhibition in the Middle East, again welcomed SmartMan. People from many countries they took advantage to have some hands-on time on our high fidelity manikins.

SmartMan continually strives to improve training. We have introduced more than 10 world first in the move towards Quality CPR and this year we have added another new product; an all new manikin which offers exceptional quality in terms of look, feel and performance yet which comes with a new much lower cost.

The reception to our SmartMan BASIC BLS CPR feedback manikin at Arab Health was exceptional. Many thanks to all!
