

New Years Resolution at IMSH 2018

Even More Lives Saved!!!

Quality CPR with Intuitive Feedback Simulation

SmartMan High Fidelity Feedback Simulation Superior Sensors with Easier to Use Software

At IMSH, a premier show for high fidelity simulation, SmartMan was incredibly well received. It was held at the Convention Center in downtown Los Angeles, CA.

As SmartMan has expanded its features and products, more and more companies have sought to partner with us to enhance their own product lines. At this IMSH, besides have our own booth, SmartMan was on 3 other booths.

Also many thanks for all of those who came by the SmartMan Corporate Suite to have a more detailed hands-on and to have a sneak preview of our up and coming products. And a special thanks to all of the SmartMan staff who put in overtime in order to make this very busy time a success.

SmartMan is the most accurate and easiest to understand CPR feedback system that money can buy. We have always been the leader in the move to improving quality of CPR performance.

Thank you everyone for stopping by and trying out SmartMan.

Better Feedback Makes a Difference to the Patient
